

Cleaning your escalators over 100 times per year with Tread-TEQ can cost less than having them cleaned once a year by an outsourced escalator cleaning company!

	Once a week 52 cleanings per year	Twice a week 104 cleanings per year	Every day 365 cleanings per year
Cost per Cleaning	€ 9.21	€ 7.39	€ 5.99
Annual Cost	€ 478.92	€ 768.56	€ 2,186.35

IMPORTANT: See calculations and disclaimer page for more details. Calculations portrayed are all estimates. An outsourced annual restorative cleaning cost of €1200.00 was used for this comparison, your costs may vary. Estimates portrayed are based on a 1000mm escalator. 800mm and 600mm escalators will cost less.

How often should I clean my escalators?

Traffic	High	Medium	Low
Location	Airports & Subways	Casinos & Shopping Malls	Hotels & Office Buildings
Recommendation	Daily	Twice a week	Weekly

Why maintenance cleaning is better than restorative cleaning?

Regularly scheduled maintenance cleaning provides cost savings, improved aesthetics and increased safety.

Higher frequency maintenance cleaning with the Tread-TEQ system costs less per cleaning because more frequently cleaned escalators have faster cleaning cycles. Faster cleaning cycles lower labor costs and increase pad longevity. The more often an escalator is cleaned, the lower the per cleaning costs will be. Additionally, increasing your escalators cleaning frequency can also lower exposure to slip and fall hazards often caused by oil or grease build up on the standing or stepping surface of the escalators' treads and regularly scheduled escalator maintenance cleaning can also lower the escalators' repair and maintenance costs.

Calculations & Disclaimers

Cost estimate based on 7 cleanings per week

€ 5.99/per escalator

This cost estimate assumes the pads will last 15 cleaning cycles at € 3.95/pad per cleaning and assumes the escalator will require 2 rotations per cleaning for a total of 2 minutes at € 0.84 labor cost.

Cost estimate based on 2 cleanings per week

€ 7.39/per escalator

Assuming pads last 12 cleaning cycles at € 4.94/pad per cleaning and assumes the escalator will require 3 rotations per cleaning for a total of 3 minutes at € 1.25 labor cost.

Cost estimate based on 1 x cleaning per week

€ 9.21/per escalator

Assuming pads last 10 cleaning cycles at € 5.92/pad per cleaning and assumes the escalator will require 5 rotations per cleaning for a total of 5 minutes at € 2.09 labor cost.

Cost estimate for 1000 ML of diluted Clean-TEQ

€ 1.20 per cleaning cycle

The amount and cost portrayed above was included in each of the calculations shown. Your costs, requirements and results will vary.

IMPORTANT: The calculations portrayed are estimates only. Your material costs, labor rates, cleaning times, results and requirements may vary. Material costs are based on EscaTEQs' 2020 MSRP price list. Labor is based on a € 25.00/ hourly rate. Transit and set up times HAVE NOT been taken into account and DO NOT include the cost of a Tread-TEQ head unit (tool). Calculations assume pad reusability estimates of between 10 to 15 cycles. The number of rotations required to clean your escalators will vary and depend on the amount and type of dirt being cleaned, the temperature, humidity and condition of the escalator being cleaned. A one-story escalator takes approximately one minute to complete a full rotation. Cleaning cycles are determined by the number of rotations required per cleaning. The condition and age of your escalators and the amount and type of dirt accumulated, along with other variables will all affect your results and costs. An outsourced escalator service cost of €1,200.00 was used for the cost comparison.
